

Of colleges affiliated to RGUHS

Dear Sir/Madam,

Research has always had a higher priority for Rajiv Gandhi University of Health Sciences, Karnataka. A new initiative taken by the RGUHS is to fund short term research grants for undergraduate students.

Now, for the year 2024-25, the Notification has been issued from the University inviting applications to submit the Research Proposals from the undergraduate students of all colleges affiliated to RGUHS. The Notification and Application formats are available in the following link

<http://www.rguhs.ac.in/AdvancedResearch.htm>

The same is also available in RGUHS Official Website.

The last date for submission of research proposals is 15-03-2024.

Please circulate the attached notification amongst all undergraduate students of your college, host it on the college website, notice board etc., and give wider publicity and encourage them to apply for the research grants.

Only five selected proposals are to be sent from each college by the head of the institute. In case more proposals are sent from each college then only the first five proposals shall be considered.

We appreciate your continued support and look forward to more research proposals from your Institute.

With best regards,

Director,
R & D (Advance Research),
RGUHS

To,
All the batch mentors,
Dr Amit, Dr Sadig to post
in college website.
